
1. sequential, near us: 27.40×
N = 48: 24 masses + 24 voids
leftover by mode (dashed = start)
residual after fit: 27.40×
2. giant partners: 1.23×
N = 10: 4 masses + 4 voids + 2 partners
leftover by mode (dashed = start)
residual after fit: 1.23×
3. outside, no mirror: 0.73×
N = 12: 7 masses + 5 voids
leftover by mode (dashed = start)
residual after fit: 0.73×
