4. outside, no wall (smooth limit): 0.73×
N = 10: 6 masses + 4 voids
leftover by mode (dashed = start)
residual after fit: 0.73×
5. inside, masses only: 0.62×
N = 7: 7 masses
leftover by mode (dashed = start)
residual after fit: 0.62×
6. outside, masses + deep voids: 0.58×
N = 11: 6 masses + 5 voids
leftover by mode (dashed = start)
residual after fit: 0.58×
