(a) outside our sphere, CoE wall in place
(b) removing the walls
(c) inside our sphere, and all open
(d) inside: mass cap and compensation
best leftover (× floor)
number of added bodies N
outside: masses only
outside: masses + deep voids
outside: deep voids only
outside: no mirror layouts
giant partners (+ ordinary bodies)
outside: masses + deep voids
outside, no wall: smooth-density limit
outside, no wall: fully open
all open (smooth-density limit)
inside: masses only
inside: masses + deep voids
inside: deep voids only
all open (smooth-density limit)
inside: masses only
inside: masses, cap 1e53 kg
inside: masses, no compensation
inside: masses, compensation from outside
