
10. core open: masses + deep voids: 0.46×
N = 10: 6 masses + 4 voids
leftover by mode (dashed = start)
residual after fit: 0.46×
11. core open: no mirror: 0.37×
N = 11: 6 masses + 5 voids
leftover by mode (dashed = start)
residual after fit: 0.37×
12. core open: all open: 0.18×
N = 8: 4 masses + 4 voids
leftover by mode (dashed = start)
residual after fit: 0.18×
13. core open: giant partners: 0.17×
N = 10: 4 masses + 4 voids + 2 partners
