
4. B: CMB-aware, shallow voids: 162.9×
6,000 shallow voids
leftover by mode (dashed = start)
residual after placement: 162.9×
5. A: near fix, shallow voids: 135.3×
30 shallow voids
leftover by mode (dashed = start)
residual after placement: 135.3×
6. A: near fix, deep voids + clusters: 27.4×
24 deep voids + 24 clusters
leftover by mode (dashed = start)
residual after placement: 27.4×
